

## ***Northern people will have access to integrated health services, built on a foundation of primary health care***

### **We will:**

- Partner with others to establish multi-disciplinary 'Primary Care Homes'<sup>1</sup> where people will access coordinated health services
- Partner with aboriginal people to build a health system that honours diversity and provides service in a culturally relevant manner
- Build efficient and effective secondary and specialty services which are aligned with the 'Primary Care Home' and designed to meet the needs of Northern populations
- Develop and implement strategies that improve service provider collaboration
- Measurably improve satisfaction with the health services provided by Northern Health

<sup>1</sup>A 'Primary Care Home' is where people establish a long term relationship with a multi-disciplinary team and through this team, receive health care and are supported in managing their own health.
